STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. SMITH (for himself, Ms. STABENOW, and Mr. SANTORUM):

S. 198. A bill to amend the Internal Revenue Code of 1986 to allow an income tax credit for the provision of homeownership and community development, and for other purposes; to the Committee on Finance.

Mr. SMITH. Mr. President, I rise today with Senators STABENOW and SANTORUM to introduce the New Homestead Economic Opportunity Act. This legislation will create a single-family housing tax credit for developers who build in low income areas, and allow more Americans to reach their dreams of homeownership. It will also encourage developers of single family units to invest in low income areas and improve our communities.

Currently, there are no tax credits available to developers of new or rehabilitated, affordable single-family housing. The low-income housing tax credit provides tax credits to owners of low-income rental units, but does not provide a solution to the problem of a lack of affordable homes. The quality of life in distressed neighborhoods can be improved dramatically by increasing home ownership. Existing buildings in these neighborhoods often need extensive renovation before they can provide decent owner-occupied housing. It is also difficult for renovations to occur because the costs involved exceed the prices at which the housing units could be sold. Similarly, the costs of new construction may exceed its market value. Properties sit vacant and neighborhoods remain devastated. The New Homestead Economic Opportunity Act bridges the gap between development costs and market prices and will revitalize these areas.

Our legislation will create a single-family housing tax credit of \$1.75 per resident which will be made available annually to States. In my home State of Oregon, the most recent Census estimates State or local housing credit agencies will award these credits to housing units, including condominiums and cooperatives planned for development of single-family housing in census tracts with median incomes of 80 percent or less of area median income. The value of the credits could not exceed 50 percent of the qualifying cost of the unit. Rules similar to the current law rules for the Low Income Housing Tax Credit will apply to determine eligible costs of individual units.

The owner of the housing unit being sold to a qualified buyer will be eligible to claim the single-family housing tax credit over a 5-year period beginning on that date. Eligible home buyers must have incomes at 80 percent or less of applicable median family income. They would not have to be first time homebuyers, and rules similar to the mortgage revenue bond provisions will apply to determine applicable median family income.

In Oregon, rising housing costs are prohibiting working families from being able to afford homes. With a lack of affordable housing, costs are rising, and families are unable to gain the stability and equity homeownership provides. In its first year, the New Homestead Economic Opportunity Act would support more than 360 new affordable homes, probably more if credits are used in connection with less costly re-

habilitations. A family of three or more with an income of \$30,000 will be a qualified buyer in Oregon. This legislation will affect real working Americans.

I am proud to sponsor this legislation that will further the dream of so many Americans through homeownership. I urge my colleagues to join me in supporting the New Homestead Economic Opportunity Act.

I ask unanimous consent that the New Homestead Economic Opportunity Act be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 198
